

JAPAN COAST GUARD

Mobile Cooperation Team

Capacity Building Support for the Indonesia Coast Guard Agency (BAKAMLA) (Overview)

- 1 Schedule
September 12th (Sat)–September 19th (Sat), 2026
- 2 Location
Batam, Republic of Indonesia
- 3 Dispatched Staff
3 Mobile Cooperation Team (MCT) members
- 4 Participating organizations
15 members of Indonesia Coast Guard (BAKAMLA)

5 Overview

The MCT provided capacity-building support to BAKAMLA personnel for matters necessary for maritime law enforcement activities through the JICA framework.

During this mission, practical training was conducted on criminal investigation procedures related to oil discharge incidents, with a focus on initial response at the scene.

Guidance was also provided on how to prepare documents incorporating photographs, sketches, and other findings from the practical exercise. Participants presented the documents they had prepared, thereby reviewing a series of procedures required for criminal investigations.

We will continue to respond with precise care to their requests regarding our support through consultations. While strengthening our relationships of trust, MCT will effectively implement capacity-building support by maintaining consistency and continuity.

The JCG will strengthen cooperation and collaboration with the coast guard agencies of other countries to realize a Free and Open Indo-Pacific (FOIP), while supporting capacity-building efforts for countries in the Indo-Pacific region.
